

DIGITAL PROGRAM ADVERTISEMENT ORDER FORM

Our program is going DIGITAL! All ads are color and will include links/QR codes to your business' website!!!

Image consideration and copyright law: As a universal rule, most images are protected by copyright laws around the world and you need permission to use an image as-is or to adapt it. Illustrations, photographs, logos and the like are all protected by copyright. You can't download and use images you find online without the permission of the photographer (or other copyright owner). You may think - others are downloading and sharing Facebook photos all the time, so how can it be illegal? Although this is a common occurrence, it is still illegal. If your ad includes copyrighted images, e.g., Disney characters (like Mickey Mouse, Tinkerbell, or the Avengers) or photos taken by a professional photographer (like Senior pictures), unfortunately, we will not be able to include the ad in the program.
